01 EXECUTIVE SUMMARY

The month *in brief.*

HEADLINE

[Reach grew 38% and DMs doubled, driven by educational Reels. Next month we turn that attention into bookings.]

01	WHAT HAPPENED	[A factual overview of the month: what was published, campaigns run, notable events, and the overall direction of results.]
02	WHAT WORKED	[The two or three things that clearly moved the numbers, and the evidence behind them.]
03	WHAT WE LEARNED	[The insight that changes what we do next: an audience behaviour, a format signal or a conversion pattern.]

PRIMARY GOAL	RESULT VS TARGET	OVERALL STATUS
[Qualified DMs]	[32 / 30 · on track]	[● Ahead of plan]

READING THE NUMBERS

[Engagement rate dipped slightly because reach grew faster, reaching more new people. The metrics that matter most, leads and bookings, rose sharply.]

03 GROWTH

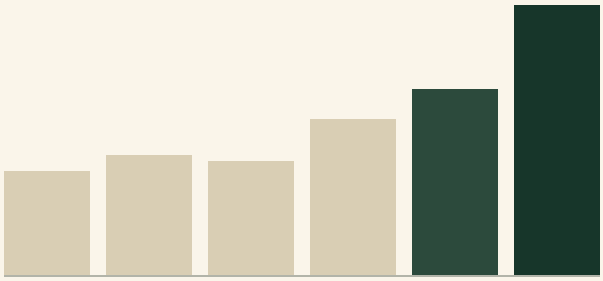

Month-over-month *trends.*

FOLLOWER GROWTH [+310]

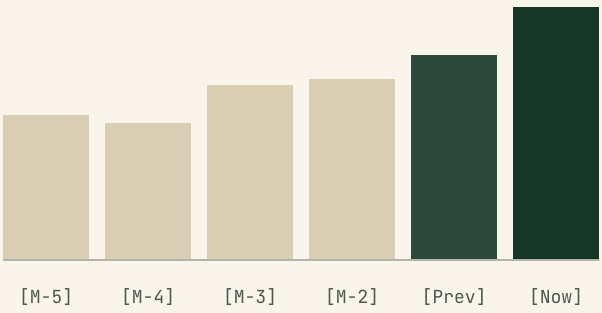

[Steady compounding growth; strongest month to date.]

REACH [+38%]

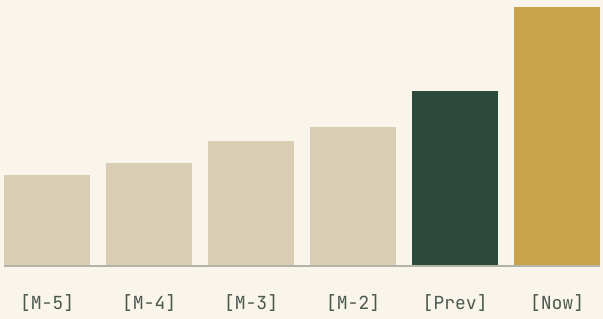

[Jump driven by two Reels reaching non-followers.]

ENGAGEMENT [+27%]

[Saves and shares up most; comments stable.]

PROFILE ACTIVITY [+44%]

[Profile visits and link taps rose together: intent is up.]

[Chart placeholders: replace the bars with exported charts, or change each bar's height in the editor to match your data.]

05 UNDERPERFORMING CONTENT

Where we see *room to grow.*

[Not every post will land, and that's useful. These results tell us what to refine.]

CONTENT

[Product flat-lay · Static]

POSSIBLE REASON

[No person or story in frame; caption led with features.]

PERFORMANCE

[1.1k reach · 38 engagements · below average]

WHAT WE'LL CHANGE

[Show the product in use and open with the outcome.]

CONTENT

[Trend audio Reel]

POSSIBLE REASON

[Trend was near the end of its cycle; weak link to our message.]

PERFORMANCE

[2.0k reach · low watch time (28%)]

WHAT WE'LL CHANGE

[Only join trends in their first week and tie them to a pillar.]

CONTENT

[Long educational carousel]

POSSIBLE REASON

[Too much text per slide for mobile.]

PERFORMANCE

[Good saves, low completion past slide 4]

WHAT WE'LL CHANGE

[Cap at 7 slides, one idea per slide, larger type.]

06 AUDIENCE INSIGHTS

Who showed up, *and why.*

WHO ENGAGED?	[Top age range, location, gender split and the share of engagement coming from non-followers.]
WHAT TOPICS RESONATED?	[Themes with the highest saves, shares and comments.]
COMMON QUESTIONS	— [“How much does it cost?”] — [“Do you work with beginners?”] — [“How long until I see results?”]
AUDIENCE BEHAVIOUR	[Peak active times, days, and how people move from content to profile to DM.]

NEW AUDIENCE INSIGHT

[A growing segment of engaged followers are [new segment], suggesting an opportunity to create content specifically for them.]

07 CONTENT INSIGHTS

CONTENT GAPS

[Topics the audience asks about that we haven’t covered yet, e.g. pricing transparency, beginner guidance, FAQs about the process.]
